

REFLEX INTEGRATION & FUNCTIONAL VISION

Developing the Brain from the Bottom Up!

Level III Course

COURSE OBJECTIVES

Level III (Prerequisite – Levels I & II)

- ✓ Build upon lower brain development knowledge from Reflex Integration Level's I & II.
- ✓ Dig deeper into 4 primitive reflexes that are key to healthy vision development.
- ✓ Understand the difference between Eyesight, Vision, and Functional Vision.
- ✓ Recognize 6 functional vision skills which support cognitive, physical, social, and emotional abilities.
- ✓ Learn to identify physical signs of underdeveloped functional vision interfering with the learning process.
- ✓ Explore and play with hands-on tools that help integrate primitive motor patterns and improve functional vision skills.
- ✓ Make connections between daily struggles and immature functional vision.

2019 COURSE DATES
