

REFLEX INTEGRATION & FUNCTIONAL VISION

Developing the Brain from the Bottom Up!

LEVEL III TRAINING

Class Objectives

- ✓ Review 4 primitive reflexes and how they contribute to healthy vision development.
- ✓ Understand 6 functional vision skills that support learning and physical abilities.
- ✓ Learn how an underdeveloped vision system can effect learning and behavior.
- ✓ Explore and play with hands-on tools that help integrate primitive motor patterns and improve functional vision skills.

August 1, 2019

9:00 AM – 4:00 PM

Location: 25 Westcott Rd Hopedale, MA 01747
